

American College of Veterinary Radiology Presents

# RECAP

**Radiology  
Educational  
Case-Applied  
Practice**

**Improving radiology skills for common clinical presentations.**

Come join ACVR in a full day of case-based education focused on practical radiology that answers clinical questions in common small animal diseases. Learn how to partner with your local radiologist to diagnose common presenting complaints, make informed decisions by applying pattern recognition, and return home to your practice more experienced and confident. ACVR is proud to partner with IDEXX, bringing you speakers and topics that will enhance the services provided to your clients. *This interactive session is ideal for General Practitioners, Residents – radiology and other specialties Interns*

## Meet Your Future Partner & Our Event Sponsor

IDEXX Laboratories, Inc. is a member of the S&P 500® Index and is a leader in pet healthcare innovation, serving practicing veterinarians around the world with a broad range of diagnostic and information technology-based products and services.

IDEXX products enhance the ability of veterinarians to provide advanced medical care, improve staff efficiency and build more economically successful practices. IDEXX is a worldwide leader in providing diagnostic tests and information for livestock and poultry and tests for the quality and safety of water and milk.

IDEXX Diagnostic Imaging continues to lead the market in low-dose radiation and offers the first radiography system in veterinary medicine to enable low-dose radiation image capture without sacrificing clear, high-quality diagnostic images. Reduction in radiation exposure is critically important to the health and well-being of pets and veterinary professionals.

IDEXX also offers Telemedicine Consultants to provide consultations to ensure more in-depth study and expert review for diagnosis/treatment recommendations.

## Sunday, November 3, 2019
